WEDNESDAY 18 & FRIDAY 20 AM, OCTOBER 2023
Pullman Melbourne on the Park,
East Melbourne

The AEA2023 conference committee is proud to announce the annual AEA2023 Pre-Conference Workshops.

The AEA is the Australasian region's leading organisation supporting the practice and implementation of epidemiology and biostatistics. Our scientific meeting is a great opportunity for epidemiologists, biostatisticians, and those in the field to come together to share and discuss research, practice, and methods.

The workshops will be interactive in nature, and a large portion of them will be devoted to question and answer sessions, small-group interaction, and discussion between the presenters and participants.

The Workshop session will bring together the best available expertise on the topic under focus, and will include contributors from a range of different institutions, disciplines, and research groups. Diversity among the contributors will be encouraged and welcomed.

WORKSHOPS:

Wed 18 & Fri 20 AM October
